ABOUT OUR DESIGNS

Jayne Gillan Designs has grown from a passion of wool.

Wool is a naturally sustainable material, that is bio-degradable under the right conditions, yet long-lasting when taken care of.

.....

It allows your skin to breathe and still keeps you warm and dry at the same time.

.....

All the designs are original to Jayne Gillan, and worked to patterns that are tried and tested. The softest Merino Wool is felted to a point where the items are still soft, yet highly durable. Inspiration for the designs are from the colours and textures of Ireland.

The Kells Bay Collection

**features luxurious open weave silk
and fine merino wool combined
with artisan dyes, that give high
shine to the silk.**

**The colours draw on the landscape
colours of the tropical South West
of Ireland where blues mix with
greens, and pinks merge with
purples.**
